

Anthem's new app makes health care easier

Find a doctor. See your benefits. Check your plan info. Sydney is personalized and easy!

Meet Sydney, the mobile app that runs on intelligence. Sydney gives you a simple, personal experience that's all about you, your plan and your health care needs. In fact, Sydney includes everything you need to know about your health benefits all in one place.

Sydney is simple

You get one-click access to benefits info, Member Services, LiveHealth Online and wellness resources. That means you can quickly find what you need.

Sydney is smart

The more you use it, the more Sydney can help you stay healthy and save money. And Sydney's chatbot can answer your questions in real time.

Sydney is personal

You'll see health reminders and get suggestions for wellness programs that are best for your unique health needs.

Sydney connects you to everything you need to know about your health plan. You can:

- **Find care and check costs:** It's easy to search for doctors, hospitals, labs and other providers in your plan. You can search by name, location and type of care. You can even filter by gender or languages spoken, then check costs before you go. This helps you find what's best for you.
- **View claims:** With one click, you can check claims and see what's covered. That means you can spend more time focused on your health and less on managing your health benefits.
- **View and use digital ID cards:** You can always have your most current ID card handy. And you can use it just like a paper one when you visit the doctor, pay for care and more.
- **Check all benefits:** A personalized menu shows you essential information at a glance. It's based on what you want to see, whether that's an overview of your plan, health reminders or suggestions for wellness programs. You also can find your deductible, copay and share of costs.
- **Use the chatbot and get answers quickly:** Sydney's chatbot feature means you can text the app and get answers quickly. Plus, Sydney can suggest resources to help you understand your benefits, improve your health and save money.

More features coming soon!

We're just getting started with Sydney. Look for more exciting features, like fitness tracking and the ability to schedule doctors' appointments, later this fall and into next year.

Download the app today

Sydney is available for [iPhone](#) and [Android](#), and it's free.
