

# Now there are health care choices beyond the border

## *Introducing SIMNSA*

A new HMO medical group in Mexico offered by Anthem Blue Cross for our California Large Group members

Anthem Blue Cross (Anthem) realizes our clients would like to access health care in Mexico. Recognizing that a growing part of the U.S. workforce wants to obtain health care services beyond the border, we've collaborated with one of the health maintenance organization (HMO) providers in Northern Mexico — Sistemas Medicos Nacionales, S.A. de C.V. (or SIMNSA for short).

### What this means for our clients

At Anthem, we want to make it easier for companies to offer affordable health care plans for their employees. Large Group HMO members may now choose SIMNSA as their primary medical group. This includes Anthem's traditional, Select, Select Plus and Priority Select HMO networks. When members choose SIMNSA as their Primary medical group, they'll receive all care, including prescriptions, through the medical group.

### SIMNSA offers its members:

- **Affordability** — When members select SIMNSA as their primary medical group and receive services authorized by SIMNSA, there will only be a \$5 office visit copay and a \$5 prescription copay when dispensed through a SIMNSA pharmacy.
- **Broad network** — Through SIMNSA, members will have access to a broad network that extends through the border cities of Tijuana, Tecate and Mexicali.
- **Quality care** — SIMNSA is the first HMO in Mexico to be licensed as a health care service plan by the state of California.
- **Top-notch service** — Anthem's experienced sales and service teams are available to assist SIMNSA members every step of the way. And our customer service team is bilingual!

We're thinking out of the box and beyond borders — to give clients the choices they're looking for.
