All costs are for in-network providers. Plan option costs vary depending on plan chosen. Example based on 2022 plan options. This is an example only and may not be available in your area.

Prevention & early treatment are key to better overall health

- More than 47% of American adults suffer from periodontal disease.²
- Members with diabetes have a higher risk of developing periodontal disease, which can make it harder to control blood sugar and increase diabetic complications.³
- Some studies have shown that the bacteria in the mouth linked to periodontal disease can move into the bloodstream and lead to inflammation in the blood vessels. This may increase the risk of heart disease and stroke⁴

This communication provides a general description of certain identified insurance or non-insurance benefits provided under one or more of our health benefit plans. Our health benefit plans have exclusions and limitations and terms under which the coverage may be continued in force or discontinued. For costs and complete details of the coverage, refer to the plan document or call or write your Humana insurance agent or the company. In the event of any disagreement between this communication and the plan document, the plan document will control.

This plan provides benefits for contracted and non-contracted dentists. Non-contracted dentists have not agreed to provide services at contracted fees. If a member sees a non-contracted dentist their out of pocket costs may be higher than that charged by contracted dentists.

For Colorado: The Network Access Plan, which describes an access plan specific to your network, is available by calling the customer service number found on your Humana Vision ID Card/Dental ID card and requesting a copy.
