# Focus

A new HMO option with a focused local network at a low price point

Introducing **Focus**<sup>1</sup>, a new HMO plan that provides the same level of coverage as our traditional HMO plans, but at a lower cost. The difference is in the refined local network: a narrower network designed to help keep costs in check.

### Refined network

The Focus plan utilizes a distinct subset of UnitedHealthcare of California's full HMO network and provides access to select local physicians and specialists. These physicians coordinate care and work with their patients to manage their health and health care costs.

### Flexibility

The Focus plan features preferred local provider systems and local community hospitals at significant savings compared to the more broad network offering. And, because the Focus network is a subset of the more broad UnitedHealthcare network, employers can take advantage of the savings for their local employee population while having the option to wrap or pair the Focus network with additional UnitedHealthcare plans to meet the health care needs of all employees, inside or outside the Focus plan area.

### How the plan works

Members must select a primary care physician (PCP) from the Focus network who coordinates care with other physicians and specialists in the network.

Focus plan offers:

- ▶ Access to the PCPs and health care professionals at well-known medical group facilities

- ▶ Preventive care checkups at no additional cost
- ▶ Care coordinated by their PCP
- ▶ HMO plans
- ▶ A Flexible Spending Account (FSA) option
- ▶ Wellness programs and treatment decision support

The Focus product offers employers a number of favorable premium and benefit options designed to provide members with the health coverage they want and need at a more predictable and lower cost.

### Wellness programs that encourage members' participation

We believe that wellness programs in the workplace could potentially save employers money. When employees learn how to make good decisions for their health, everyone wins.

- ▶ UnitedHealth Wellness®
- ▶ Fitness reimbursement program
- ▶ Biometric screenings and coaching
- ▶ Health discount program
- ▶ Preventive care services
- ▶ Member online portal

At UnitedHealthcare, we believe that a well-rounded health plan should have the programs, resources and tools that people need to live healthier lives. That's why Focus, like all our plans, comes with health and wellness features that support members, as well as the physicians who care for them.
