Guaranteed conversion

If an employee or dependent, up to age 70, loses coverage due to the employee's loss of employment, loss of eligibility or reduction for age, the coverage can be converted to an individual whole life insurance policy. Maximum amounts to be converted vary based on the certificate. If the group coverage ends due to termination of the policy, conversion is available when the member's coverage has been in effect for at least three years. Voluntary ported coverage also can be converted when the policy is terminated. The conversion policy is issued without evidence of insurability and must be applied and paid for within 31 days of coverage termination.

Accelerated death benefit

An employee diagnosed with a terminal illness that is expected to result in death within 24 months based on the plan offered can receive a portion of the insurance benefit. Amount payable is 50% to a maximum benefit of \$250,000.

The advanced amount will reduce the life insurance benefit at the time of death; this varies according to state regulations. Humana must approve the benefit application.

Residents of Alabama, Illinois, Indiana, Massachusetts, Michigan, Ohio, Oklahoma, Virginia and Washington must have continuous coverage a minimum of 30 days to qualify for illness coverage. Residents of Texas must have continuous coverage a minimum of six months to qualify for illness coverage. For accidents, coverage begins on the effective date of the policy.

Portability for voluntary life

An active eligible employee who leaves the group can continue voluntary life insurance by paying annual premiums to Humana if he or she is not yet age 70. Only coverage in force or a lesser amount can be ported. Employee must exercise portability option within 31 days of termination. Note: Employees will be charged Humana's current portability rates when they leave.

Portability is state-specific and is not available in Minnesota and Massachusetts. For specific benefits of coverage, contact your sales representative or refer to your Certificate of Coverage.

How much life insurance does your employee need

If your employees have people who depend financially on them, they need life insurance no matter what their age or marital status. With life insurance, they can help spare their grieving loved ones the additional stress of economic difficulties and help to preserve their quality of life.

One rule of thumb for recommended coverage is a life insurance amount equal to up to 10 times annual income, according to the American Council of Life Insurers. No one guideline applies to everyone, however, because financial situations and goals vary from person to person, and family to family.
